

Minimum Viable Product

Use attached text and make a summary for your colleagues. You can also use internet and some graphic representations and tools. Try to focus on the questions below and you would have 10 minutes for your summary. Try to involve all members of your team.

- What all can be called a prototype based on social enterprises you already came into contact with?
- What is Minimum Viable Product?
- What is Minimum Feature Set?
- How useful it will be to know these things for your social enterprise business plans?
